---

SUMMARY

Resourceful and detail-driven developer with excellent communication skills and a strong foundation in collaborative environments. Extensive background in customer service and management with over 8 years experience in high volume restaurants. Highly adaptable and capable of working under pressure.

TECHNICAL SKILLS

HTML & CSS, JavaScript & jQuery, React, Node.js & Express, MongoDB, Mongoose, Python & Django.

PROJECTS

Local Bar & Grill

Orlando, FL | 3 days

- Built a web application designed around the clients needs to help showcase the restaurant.
- Designed a custom website with the tools necessary for customers to order food online.
- Implemented Oauth for login capabilities.
- Designed a review page for customers to leave reviews.
- Built with MongoDB/Mongoose, Express.js, and Node.js.

Fanime

Remote | 5 days

- I worked with a team of two other junior developers to produce a website capable of registering users and providing them with the ability to browse through a collection of over 10,000 anime, perform searches, upload avatars, as well as favorite anime or add anime to their watchlist .
- I was responsible for setting up and maintaining our code for use with the Kitsu API, I also set up and maintained our database, and built a responsive design that could be enjoyed across all screens.
- We built this project using Django, Python, HTML, CSS, and Materialize.

Checkers

Remote | 5 days

- Developed a fully functional web based game.
- Incorporated the fundamentals of HTML, CSS, and Javascript.

WORK EXPERIENCE

Bartender/Bar Manager
Orlando, FL

The Local Bar & Grill	*June 20th 2019 - Current*
Ford's Garage	*February 13th 2019 - August 10th 2019*
TGI Fridays	*April 25th 2013 - May 30th 2019*

- I operate as the sole bartender and manager on busy weekend night shifts.

- Use the Aloha POS system to finalize end of the day sales and input all credit card transactions into the database, make menu changes, price adjustments, and enter server and bartenders hours and tips for the day accurately.
- Improved customer engagement by delivering exceptional service while managing the bar and tending to all guest needs.
- Assist in the recruiting, hiring and training of all new bar staff.
- Increased bar revenue 5% through the development and marketing of new menu items.
- Steer and monitor movement of inventory from the store to the bar.
- Address complaints and resolve problems with both staff and customers.
- Responsible for managing register receipt counts and bank deposits.
- Allocated time management efficiently working 15-25 hours while enrolled as a full time student.
